

Call for Expression of Interest

PhD and postdoc projects in metabolic genetics at
Novo Nordisk Foundation Center for Basic Metabolic
Research

Submission deadline: 1 September 2017

A number of PhD and Postdoc positions will be available for application in the early autumn 2017 at [Novo Nordisk Foundation Center for Basic Metabolic Research](#), Section for Metabolic Genetics.

We therefore invite potential PhD students and Postdoc candidates to submit a letter of interest for projects within the section research area.

The focus is studies of the human genome and the gut microbiome, in relation to cardio-metabolic health. Applying systems medicine approaches to integrate novel human genome and gut microbiome discoveries with complementary phenotypic and environmental information, the ultimate goal is to contribute to innovative, preventive and therapeutic interventions targeting cardio-metabolic disorders.

Submit your letter of interest along with a short CV presenting your scientific interest and qualifications to Trine Toldsted at ftoldsted@sund.ku.dk no later than 1 September 2017.

We will decide within which specific research area the available PhD and Postdoc positions will be advertised early autumn.

All available positions will be advertised at www.metabol.ku.dk
